**December 2009**

### Seasons Greetings

Rangitikei Foods Ltd appreciates your custom during the year and wishes you all a happy festive season.

### Green Leaf Vegetables

After the cold spring, supplies of Green Leaf Vegetables are almost back to normal, but up in price on where we would expect them to be. There should be plenty available for Christmas Dinners.

### Ordering Deadlines

Ordering deadlines for the Christmas and the New Year weekends are listed on the homepage of our website. Prepared Vegetables for Christmas need to be ordered by **10am, Monday 21 December 2009**. We need this much notice as we need to order in the raw produce that can be very hard to source closer to the holiday weekend. New Year's orders must be in by 10am, **Monday 28 December 2009**.

### Asparagus

The Asparagus season will run until mid December. There may still be some Asparagus available after that but the price is likely to rise significantly as Christmas approaches.

### Christmas/New Year Hours

We will be closed only for the Statutory

holidays over Christmas and New Year. We will be open on December 28 and January 4

### Berries

If you are going to require berries during Christmas Week, please order early. Please remember that the price of berries rises significantly for the week of Christmas.

### Stonefruit

Apricot, Nectarines, Peaches & Cherries are starting shortly. These will be available all through summer.

### Do it yourself Christmas Functions

If you are planning to cater your own Christmas Function this year, we can supply all the salads, fruit and vegetables that you will need. Surf our website for great ideas. [www.rangitikeifoods.co.nz](http://www.rangitikeifoods.co.nz)
